Toss sirloin tips in Cajun seasoning until well coated. Heat oil in a large skillet over medium high heat. Sear sirloin tips in batches until edges are brown and crispy. Add more oil as needed while searing. Set aside the sirloin tips, and reduce to medium heat.

Melt half of a stick of butter in the skillet. Next, saute a couple tablespoons of minced garlic in the butter. Turn off the heat, and toss all of sirloin tips in the garlic butter. Serve.
